

PROJECT FEATURE MAP

P O R T A L E N T R A N C E & N A V I G A T I O N

1. Entrance & Navigation

Bilingual Heritage Hub

Seamlessly switch between Hindi and English languages site-wide, ensuring accessibility for both local and international heritage explorers.

Royal Journey Selector

An interactive tool that suggests curated trip plans based on visitor interests and available time for a personalized experience.

Global Heritage Navbar

Floating navigation providing instant access to monument directories, reach guides, and emergency services from any page.

Explore Interactive Map

A spatial directory of the fort, allowing users to discover landmarks through a visual geographical layout.

PROJECT FEATURE MAP

THE MONUMENT ENGINE

2. Immersive Experiences

Heritage Detail Pages

Every major monument features a dedicated immersive page with parallax visuals and expert-reviewed historical chronicles.

Immersive Audio Guides

Integrated voice narration with waveform visualization, allowing visitors to listen to history while they explore the landmarks.

Visual Theme Engines

Custom-themed headers for each monument that adapt to the landmark's specific historical era and visual identity.

3. Intelligent Companions

HeritageGuide AI Chatbot

A personal digital historian providing answers in natural language, sharing directions, and verified historical insights site-wide.

Smart Heritage Scanner

Enables visitors at the fort to scan physical markers and instantly unlock the digital heritage experience for the monument.

4. Local Pride & Practicality

Panch Gaurav Showcase

A dedicated section celebrating the five pillars of Chittorgarh: Granite, Sitafal, The Fort, Kabaddi, and Bilva Patra.

Interactive Royal Lineage

A visual timeline mapping the legendary ancestry and historical impact of the Sisodia dynasty rulers.

RTDC Stays Portal

Verified booking directory for government-run accommodations like Hotel Panna, ensuring safety and verified quality.

Emergency Services

Direct access to tourism police and healthcare services, optimized for quick mobile use during fort excursions.
