

PORTAL USER MANUAL

The Heritage Mission

The Chittaurgarh Tourism portal is a premium digital gateway designed to preserve and share the 'Gaurav' (Pride) of the Sisodia dynasty. This guide ensures a seamless experience across our digital heritage ecosystem.

1. Royal Journey Selector

Located prominently on the homepage, the Journey Selector uses intuitive domain-based filtering to recommend a personalized itinerary based on your interests—be it historical architecture, photography, or spiritual exploration.

2. Interactive Exploration Map

Our spatial directory allows you to visualize the fort's landmarks in their geographical context. Select any monument on the map to instantly jump to its immersive heritage page.

INTELLIGENT COMPANIONS

3. HeritageGuide AI Chatbot

Your personal digital historian is available site-wide via the floating icon. It provides instant, bilingual (Hindi/English) answers to heritage queries, helps with site navigation, and shares verified historical chronicles.

4. Smart Heritage QR Scanner

For visitors physically present at the fort, our mobile-optimized QR scanner (found in the global navigation) 'unlocks' the digital experience. Simply scan the tablet markers at any landmark to load its dedicated audio guide and history.

SERVICES & PRACTICALITY

5. Immersive Audio Guides

Every major monument page features a high-fidelity audio guide with waveform visualization. Listen to the chronicles of Jauhar and bravery as you browse the landmark's gallery and history.

6. RTDC Stays & Safety

We prioritize verified, government-run local hospitality. Our 'Stays' portal connects you directly to the RTDC Hotel Panna and emergency tourism services, ensuring a safe and authentic royal stay.
